

SSPL success story...

*Have a song in your heart,
And a smile on your face*

- Vishal Jajodia
CEO

From the editor's desk:

Well Begun, is half done! "The Pharma Jukebox" started its journey in July, 2011 and since then has never looked back. The journey has only been more challenging and promising.

The following year, I promise you some more thrilling and exciting topics that will keep all you readers on your toes.

The closing issue of "The Pharma Jukebox" concentrates on the success story of Swati Spentose Pvt. Ltd. as always, I would love to hear from you. Do write back to me at pr@spentose.com

Wishing you a very prosperous and exciting new year. God Bless!

"Coming together is a beginning, keeping together is progress, working together is success."

-Henry Ford

New Year, New Beginning!

Every year has some exciting stories for itself. So did 2011, the birth year of "The Pharma Jukebox", the official newsletter of Swati Spentose Pvt. Ltd (SSPL).

I covered topics from social entrepreneurship to drying drug pipelines to rise of women entrepreneurs amongst others. The finale issue of "The Pharma Jukebox", however, has no subject. Infact, it gives you a glimpse of the success story of SSPL.

SSPL has shown an upward trend in its growth, since the time the company started. Graduating from a distribution platform to a research driven manufacturing outfit with innovative methodologies to bringing new health solutions to market.

With several years of research in the field of IC, the company or its employees never seem to have lost hope. And their patience did pay off well!

The successful launch of Comfora in the Indian market, set the pace of taking innovations to market, which is now being taken on a global scale.

Besides IC, the company has also taken lead in

another extremely painful condition, Varicose Veins. With only option for treatment being a surgery the company thought otherwise and successfully launched the only topical ointment-Varico-Gel, which will open new avenues in patient care and comfort; pre and post surgery.
